

Reach Full Charge

Boost your EV experience with our vendor agnostic charging solution which offers efficient and easily managable charging so you can hit the road with confidence.

Scheduling & Load Balancing

Scheduled charging

Charge your EV whenever it is the most convenient for you, making the process reliable and cost-effective.

Load balancing

Optimize charging efficiency and network capacity utilization by prioritizing users and provisioning chargers.

Tariff & Payments

Tariff options

Our fixed, dynamic and combined tariff choices help your business increase flexibility and predictability.

Payment options

Simplify the billing process with our integrated payment and invoicing flow options.

Charger Management

Add chargers

Manage private or public chargers in the CleverEV system.

Control and oversee remotely

Start and stop charging remotely without hassle.

Reports

Access all relevant data about the charging process.

CleverEV for Offices

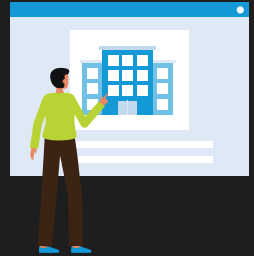

Attract more visitors and enhance tenant satisfaction with cutting-edge charging facilities from CleverEV. Bring convenience to your office campus with accessible charging for tenants and guests. Install more charging stations without increasing electricity capacity, ensuring uninterrupted access for guests during peak demand.

Centralized Charger Management

Effortlessly manage all chargers from one location, regardless of brand, with a user-friendly interface.

Flexible Payment Options

Accept major credit cards with direct deposits, eliminating extra fees.

Tenant Management

Effortlessly manage multiple tenants, distributing charging fees seamlessly and authorizing access via mobile apps or RFID cards.

Revenue Maximization

Maximize revenue without limitations on charging stations, accepting payments from both regular and occasional guests.

Automated invoicing

Streamline billing with automated invoice generation and direct user delivery.

Support

Our skilled and dedicated team is ready to provide assistance throughout the whole partnership.
